Claims 19-21 are skipped in the original numbering of the claims. Therefore, the examiner has renumbered original claims 22-59 as claims 19-56. The new numbering is used in this office action.

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3,15-18,30-33,45 are rejected under 35 U.S.C. 102(b) as being anticipated by Lindegren et al '837.

Lindegren teaches all of the subject matter of the above claims. Specifically, Lindegren shows a fiber optic bundle consisting of two fibers 32 and 36, enclosed in a biocompatible surface. Also, electrodes 40 and 42 as well as electrodes 26 and 28 can act as sensing electrodes as well as stimulating electrodes. Further, the 'optical portal' mentioned in claims 16,30 and 31 is only inferentially included in the claims, thus rendering it without positive status.

***Allowable Subject Matter***

3. Claims 4-14, 19-29, 34-44, 46-56 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
